

## Production Family

High-speed roll-to-roll  
Digital printer

# FC C3332

This printer is designed for speed for short and medium print runs printing.

Using Latex Ink we can print a wide variety of paper substrates, making it one of the most competitive solutions in the market.

It is flexible and easy to change papers to suit any other print application.

We have built-in color profiles to support our selected substrates to meet any color standards, matching customized spot colors and multicolor requirements.

## Device Parameters

Model Name	• FC C3332
Head	• High precision industrial nozzle
Number of Heads	• 4/8
Print Mode	• 600 x 600 dpi • 600 x 900 dpi • 600 x 1200 dpi
Printing Speed (production mode)	• 600-100m <sup>2</sup> /hr 20-30 sheet (A1 size of paper)
Media Delivery	• Inflatable shaft roll to roll
Large Print Width	• 1800 mm
Machine Size	• 4280 mm x 1560 mm x 1570 mm
Package Dimensions	• 4140 mm x 1600 mm x 1895 mm
Equipment Weight	• Printer: 1200 Kg - Down unit: 100 Kg
Ink Color	• Cyan, Magenta, Yellow, Black
Ink Type	• Latex Ink (dry faster)
Material Diameter	• 400 mm (≤80g, 1000 m)
RIP Software	• Compose Express RIP
Material Weight	• 200 Kg
Drying Process	• Infrared + Hot air
Power Supply	• AC 380V
Power	• System: 3 KW
Gas Source	• 0.6 MPA
Working Environment	• Temperature: 22-28 Celsius • Relative Humidity: 45-60% (Non-condensing)
